

## **Bravida Norway provides gas and compressed air systems for new hospital in Drammen**

**Bravida Norway has signed a contract to supply medical gas and compressed air systems for the central building of the new hospital in Drammen. The contract has an order value of just over NOK 104 million.**

The central building of the new hospital has a total area of 90,000 square metres. The deliverables include medical gas, medical air and instrument air systems for clinical applications at the hospital. They also include laboratory gases and technical compressed air for laboratory departments and technical areas.

“We are very proud of the confidence that has been placed in Bravida for this important assignment, and thank the developer for this. The specialist area of gas and compressed air systems is a key focus area for Bravida projects and service provision. That’s why this contract is particularly important to us. We are now looking forward to getting started with the interaction phase, and not least also production,” comments Tore Bakke, CEO of Bravida Norway.

Arnstein Hodne, Project Director for the new hospital in Drammen, comments:

“The agreement with Bravida means that we have a partner with a high level of competence in this field. Bravida is an experienced contractor and we look forward to working together.”

Production will start in April 2022.
